

BAE Systems' Aftermarket Services Transitions from London Service Centre to Rochester, Kent

BAE Systems' commercial aircraft solutions business area has consolidated its London Service Centre within its Rochester, Kent, facility.

This consolidation will better enable the implementation of best practices from around the enterprise with significant benefits to customers, including a 14-day or better turnaround time.

The BAE Systems Service Centre located in Rochester is a European Aviation Safety Agency and Federal Aviation Agency-approved repair center, located at Airport Works, Marconi Way, Rochester, Kent, ME1 2XX.

Certificates and capability lists are available for review on the commercial aircraft solutions website at <http://www.baesystems-ps.com/cas/>.
